

Year Four Newsletter

Term : Summer1

Message from your teachers

We are really looking forward to a busy summer term learning all about our local area. We will be visiting Green's Mill learning all about the life of George Green. This newsletter will allow you to find out lots of useful information about what we get up to in our busy and exciting classroom. I would like to thank you in advance with all your support with the children's learning this half term.

Mrs Strutt, Mr Rogers and Mrs Smith

We will be learning this term...

Our topic for this half term is 'We are NG3' In English we will begin the term by writing a biography about the life of the famous local mathematician 'George Green'. We will be focusing on our use of adverbial phrases of time and place and will continue to learn about varying our sentence structure. In maths, we will continue to work hard on recalling our multiplication facts up to 12x12 in preparation for the multiplication check in June. We will also be learning about numbers up to two decimal places as well as money and time

In art we will be learning about repetition in printing techniques taking inspiration from the artist William Morris.

Following this, we will working on our historical skills researching and learning all about the historical figure George Green and the Mill. We will also be comparing school life in the past and present.

Finally, in design and technology we will be learning all about mechanisms and using our previous science learning to use circuits to create a moving vehicle.

Reminders/Important Dates

- PE is every Wednesday. Please ensure that children come dressed in Black/White kit on this day and that jewellery have been removed.
- Trip to Greens Mill on **Thursday 27th April 2023**
