

Safeguarding through the Curriculum

Hogarth Academy 2022/23

Pupil safeguarding and the promotion of Fundamental British Values are at the heart of all our work at Hogarth Academy and immense importance is placed on identifying opportunities within the curriculum for children to learn about safeguarding.

Our broad and diverse curriculum gives pupils the chance to experience life in all its diversity, to acquire knowledge, understanding and skills that significantly impact on personal development, behaviour and welfare and equip every child with the knowledge and skills required for personal safeguarding.

At Hogarth Academy, we have developed a broad and balanced curriculum that is underpinned by the principles of safeguarding and one which provides explicit opportunities for the teaching and learning of safeguarding as outlined in 'Keeping Children Safe in Education',

"Governing bodies and proprietors should ensure children are taught about safeguarding, including online, through teaching and learning opportunities, as part of providing a broad and balanced curriculum."

Relationships, Sex and Personal Education (RSHE) and citizenship is a vital part of our curriculum and is integrated within our everyday practice. Through the exploration of themes and topics in daily assemblies and informal classroom discussions to the discrete thematic teaching of the subject, children's progress in our RSHE scheme, Jigsaw, and within the Foundation Stage, Personal Development and Wellbeing (PDW) is continually assessed against Learning Journeys and opportunities are planned to explore local, national and global contemporary issues wherever and whenever possible.

RSHE and citizenship enables our children to become healthy, independent and responsible members of society. We encourage our pupils to play a positive role in contributing to the life of the school and the wider community and in so doing, we help develop their sense of self-worth.

Digital literacy (E-Safety) is explicitly taught as part of our safeguarding curriculum from Reception through to Year 6 and more widely across our school community during E safety Week and through regular parent communication. Our curriculum is flexible, relevant and engages the interests of our pupils and is focused around the overarching RSHE topic being taught at that time. Additional opportunities are sought to embed E-safety skills across the curriculum and children are taught about the benefits and risks of using technology, providing safeguards and awareness that will enable them to control their online experience both in and out of school.

We plan to constantly challenge our children to think deeply about safeguarding matters and their own personal, physical and mental well-being. We value pupils' questions and give them space for their own thoughts, ideas and concerns and provide them with planned opportunities across the

curriculum to explore values, personal rights, responsibilities and equal opportunities, developing moral concepts that impact positively on safeguarding, promote British values and prevent radicalisation and extremism.

At Hogarth Academy, we develop our children's knowledge and understanding of the major world faiths by exploring fundamental questions in life and seeking opportunities to celebrate similarities and differences in people's faiths and beliefs. We enable our children to develop a sound knowledge not only of Christianity, but also of other world religions, especially those that are the main faiths of children and families within our wider school community. We are bold in exploring contemporary issues that impact on our everyday society and, through doing so, promote Fundamental British Values, including tolerance and Mutual Respect.

Safeguarding and the Curriculum at Hogarth Academy

Foundation Stages
Stranger Danger, Road safety What to do if we get lost? People who help us (emergency services), PANTS rule, being kind to others(bullying), Site Safety, Unknown Objects, Firework Safety, Medicines, Trust, Scissor Safety, Personal Hygiene – Keeping Clean.
