

Dear Parents

We are sending out an extra newsletter today to remind all our families about key dates and times and expectations as we head towards the end of term. Please read and share with your child. Thank you

Art Week Outcomes – Sculpture Park

The children have been studying the work of the sculptor Anthony Gormley this week and have made their own installations, based on his works. We are hoping to set these up outside on the field one fine day next week for you to view like an outside on the field- **keep an eye out for a marvellous me message next week !**

Please remain Polite and Refrain from Swearing

We understand, the ongoing pandemic has made life difficult and it's been a very different academic year for everyone including the school staff. We are really thankful for your patience and support this year, however please remember, if you are unhappy about something that has happened in school, please come and talk to us calmly. Swearing and using threatening language toward staff on site will not be tolerated, especially if it is in front of children and may result in you being barred from the school site for a period of time to cool off. Please remain polite and respectful at all times, you are all doing a great job supporting the school and educating your children.

End of Year Annual Reports to Parents and Parents Evening.

You will be receiving your child's annual report to parents on **Friday 9th July**. The teaching teams spend a long time ensuring the report is detailed in terms of your child's progress and attainment and reflects your child's unique personality over the year. We are offering a parent teacher conversation the following week, if you need to discuss any elements of the report, find out how to support your child further or just celebrate the successes in what has been an unprecedented academic year! To book your phone call with the class teacher you will need to **phone the school office to book in**. Time slots to speak to your class teacher will be available for **Monday 12th July, Tuesday 13th July** and or **Wednesday 14th July**. Don't delay call today to book your time.

Face Masks on site

Thank you to all those parents who wear a face mask on site. We are still having to keep our distance and so would like to remind everyone to continue to keep your distance from others at the end of the school day. We are still not out of the pandemic yet and we would love to keep our 100% record of not closing a class due to Covid since the beginning of the lockdown! Staff will also be wearing a mask at the end of the day. I understand the risk is lower outside but not everyone is keeping their distance and cases are rising in secondary schools so unless you are medically exempt, you **must** wear a mask on school property until further notice. Thank you.

Sports Day Activities – Tuesday 20th July – the children will compete in traditional sports day activities with their PE lesson that day and we will upload photos to the website for you to see your children taking part. **We are hoping that parents may be able to come along and watch this lesson but will update you nearer the time.**

Year Six Leavers Concert and Celebrations

Unless any guidance changes drastically, we will not be able to hold a year six leavers assembly in school. However, we are determined that they will have a great send off to their secondary school. They have been here a long time and have worked so hard over the years! The year six will be creating a PowerPoint /Video of photos and memories and music that parents will be able to access via YouTube and a guaranteed tear jerker! They will also be receiving their leaver's gift to keep for posterity. They will be having a **Pizza and Ice Cream** party on **Monday 26th July 2021**, non-uniform, with special activities just for year six providing a fun and memorable last few days.

End of Term Parties – Tuesday 27th July will be party day for all classes in their bubbles and a non-uniform day.

Marvellous ME – please ensure you have the Marvellous Me app on your phone, this is our main communication platform to parents as well as the website! If you need a new code, please contact the office. Thank you

Ms. S.Lee
